New MUFG Headquarters Building Overview

Tokyo, March 15, 2024 – Mitsubishi UFJ Financial Group, Inc. (MUFG) today announced that it has compiled an overview of the design and layout of the new MUFG Headquarters (HQ) Building, which is scheduled to be completed in 2029.

1. Design

The design of the new MUFG HQ Building embodies our aim for the building to serve as the symbol of an MUFG that is open and connects with all stakeholders, including customers, the community, and society as a whole, based on our purpose of being “Committed to empowering a brighter future.”

The exterior design of the new MUFG HQ Building has an emphasis on vertical lines. It inherits the rich history of the Marunouchi district where it is located, and uses stones similar in hue to modern buildings while also blending in harmoniously with the stately streetscape. The building will consist of lower floors with spaces open to the public and visitors, while the upper floors will house MUFG offices.

The lower floors will feature indoor and outdoor plazas and passageways, aerial walkways and open terraces, designed to create a lively atmosphere by interconnecting with the surrounding city streets.

Artist’s rendering of the new MUFG Headquarters Building (exterior view)

2. Layout of the building

4th floor: Lounge/co-creation space

27th and 28th floors: Rooftop terrace and lounge

Outdoor plaza

Indoor plaza

3. Overview of the building design (planned)

Note: Plan is as of this date; details are subject to change

Location	2-7-1 Marunouchi, Chiyoda-ku, Tokyo
Site area	10,846.96 square meters
Total floor area	Approx. 172,000 square meters
Height	Approx. 160 meters
Main use	Business offices, parking, shops and restaurants, etc.
Structure	Steel/steel reinforced concrete construction
Scale	4 underground floors, 28 aboveground floors, 2 penthouse floors
Design	Mitsubishi Jisho Design Inc.
Completion date	2029 (planned)
Main functions	<p>(1) Realizing new office designs and different ways of working The new building will be able to flexibly accommodate diverse workstyles as well as future changes, which will help improve employee productivity. The design incorporates such elements as cutting-edge smart building technology and a rooftop terrace and lounge, aiming to realize efficient and comfortable office spaces.</p> <p>(2) Contribution to SDGs and carbon neutrality As an architectural plan that seeks to actively contribute to the realization of a sustainable society and the mitigation of environmental impact, we intend for the building to obtain various certifications, such as LEED®¹. We also aim to fund the new MUFG HQ Building's construction through green financing, and have formulated a green finance framework.²</p> <p>(3) Disaster response In the event of an earthquake or other major disaster, we envision using the building's passageway and halls to host people in the vicinity who are unable to return home, and plan to establish resilient infrastructure and facilities that can ensure the safety and peace of mind of not only the building's residents but also visitors and the surrounding community.</p>

MUFG will create the new HQ building based on our project concept, "Go Beyond with you," which originated from our corporate purpose of being "Committed to empowering a brighter future," as we continue to strive to support our customers, communities, society, and all of our stakeholders through group-wide efforts.

Project concept:

^[1] Certification scheme for GBCI (Green Building Certification) evaluation, developed and operated by the U.S. Green Building Council (USGBC®).
